

DRG-Masking Tape 913

Single sided LDPE tape.

Multipurpose LDPE tape used mainly in the building industry as well as a generic protective tape for metal surfaces UV protection, allowing a maximum stay period of 2 months.

Technical Information – Product characteristic

Backing	--	0.100 mm LDPE film; black
Adhesive	--	natural rubber and resins solvent based
Total thickness	PSTC 133	0.120 mm
Adhesion to steel	PSTC 101	4.2 N/25 mm
Tensile strength MD	PSTC 131	45 N/25 mm
Elongation at break	PSTC 131	300 %
Temp. Resistance	--	+60 C°

Features:

Synthetic rubber and resins adhesive
LDPE backing

Benefits:

Good adhesion in most applications
Moderately resistant to ageing
Good moisture and vapour barrier
Hand tearable
Barrier to light/outdoor exposure (max 2 months)
Very high elongation
Adaptable to different surfaces
